The Judge warned Mrs. Nation if she was found in the city after that hour she would be arrested and placed She Will Take Charge of Medififteen minutes later boarded a street car for Kansas City, Kas.

The fine will be held over Mrs. Nation in case she should return to the city, and until she is released from the Court's order she is practically barred from visiting Kansas City.

Mrs. Nation appeared in court early accompanied by her brother and a woman friend. The court room was Hterally jammed and the people filled the doorway and crowded the hall. Several cases were called before Mrs. Nation's and she watched the proceedings with

manifest impatience. Mrs. Nation what she had to say in regard to the charges placed against her, the little woman arose instantly and delivered herself of a flery tirade and delivered herself of a fiery tirade From the outset of the negotiations the villages would be burned, against police and court. TREES FOR THE ISLAND FORESTS

The Disadvantages of Porto Rican Laborers---Warrant Chief Mac-Lennan About to Start.

(Special Correspondence.)

WASHINGTON, April 4.-Through not including the export figures of Hawaii and Porto Rico and the unsettled conditions in China, the record of exportation of manufactures from the United States in the fiscal year which ends the 30th of next June is not likely to equal that of the preceding fiscal

The first of these reasons is apparent when we consider that the exporters engaged in commerce with the Hawailan Islands are now refusing to furnish to the Bureau of Statistics the statements of their exports, as in former years, holding that their exports are no longer "foreign commerce," and that, theerfore, the bureau has no authority to require the usual statements which the law authorizes with reference to commerce between the United States and foreign countries.

The reason for the falling off in regard to Porto Rico is that the exports to this island are now separately classified and no longer included in the general statement of foreign com-

The exports to China have fallen off fully one-half because of the conditions now existing in that country.

Our new citizens in Hawaii next spring will be sent by the Agricultural Department, through Delegate Wilcox, a supply of young trees. This is Secretary Wilson's own idea, who has decided that, instead of sending such a large quantity of seed throughout the country, he will distribute young trees. Mr. Wilson believes that this will prove even more popular than the seed plan. The forests have been rapidly disappearing, and it is believed that unless something is done there will be a timber famine. An investigation has been made to discover the trees which thrive best in various localities, and each member of Congress will be given so many of the seedlings to send to his constituents. It is believed that this
